August 28, 2018

The Canadian Deposit Insurance Corporation, CDIC, has asked us to forward this invitation to our members. Click on the link to register for the free webinar CDIC is hosting on August 30.

In June 2018 the Government of Canada passed amendments to the Canada Deposit Insurance Corporation (CDIC) Act to modernize and enhance Canada's deposit insurance framework. The amendments will build on CDIC's current framework and will include important updates to the coverage of joint and trust deposit coverage.

These changes will come into force at a later date by order of the Governor in Council. To help the financial industry prepare for these changes, [CDIC are hosting a free webinar to review our current rules and highlight future changes.](#)
