New Webcast: The Role of Data Science in the Future of Market Regulation

Today we live in the era of data, we work on data-driven decisions. We generate, process and store a massive amount of data that historically we haven't done before. At the IIROC Annual Conference held in September, 2018, in Toronto, Jamil Abou Saleh, Vice President of Analytics, IIROC and Alex Taylor, Vice President of Market Surveillance, IIROC discuss the role of data science and how IIROC is leading efforts to incorporate this relatively new technology into the area of market regulation.

Your completion of this webcast will earn you **0.5 hours of IIROC Continuing Education Compliance Credits.**

This webcast will be available for viewing commencing on December 5 at 7:00 am Eastern time and on a 24/7 basis after that date.

Please note that there is no accompanying quiz for this webcast. Upon completion of the webcast, participants will be issued an electronic and personalized Continuing Education credit (0.5 CE credit) certificate which can be applied to their **Compliance Requirements**.
