List of floating and tracking error margin rates for qualifying Canadian and U.S. index products

This list is published monthly and provides the margin rates for Canadian and U.S. index products whose index qualifies as an “index” in Dealer Member Rule clause 100.9(a)(xii) [IIROC Rule subsection 5130(9)]¹. By qualifying as an index, these products can use the floating margin rate methodology for margining purposes.

The list is prepared using data available up to the period ending February 28, 2021, and is effective from March 12, 2021 until replaced by a subsequent list. The margin rates have been calculated according to Dealer Member Rule clause 100.9(a)(x) [IIROC Rule subsection 5360(3)].

The [list of floating and tracking error margin rates for qualifying Canadian and U.S. index products](#) is available in Microsoft Excel format under the Supporting Rule Resources section of the IIROC website.

¹ To assist readers, we reference applicable IIROC Rules provision (see Notice [19-0144](#) – IIROC Dealer Member Plain Language Rule Book Implementation). Since the plain language rule book is not yet effective, we shaded this reference in grey. The shading will be removed when the plain language rule book is effective.
