BULLETIN #3570
August 25, 2006

Complaints and Settlement Reporting System (ComSet)

ComSet System Upgrade

The IDA will be introducing a new ComSet system within a few weeks. The core functions of ComSet will remain the same, however, there will be some changes including, but not limited to, a new web address, new login id's, different screens, and some new capabilities.

During the implementation phase, ComSet may be unavailable for a short period of time.

Another bulletin will be issued closer to implementation day with additional information.

Kenneth A. Nason
Association Secretary
