FX Margin Surcharge

In reference to IDA Regulation 100.2(d)(v)(B) and (C), there is in place a monitoring mechanism whereby the volatility of all foreign currencies in Groups 1, 2 and 3 are monitored by the IDA on a daily basis. For any foreign currency in which its exchange rate volatility exceeds defined parameters, there is an automatic margin surcharge required to be effective for a minimum of 30 days from the date of a notice to members.

Based on the volatility of the US dollar exchange rates, effective immediately, the following spot risk margin rate(s) apply until further notice:

Switzerland Franc versus US Dollar from 3.00% to 3.80%

Attached is the foreign exchange *Margin Violation Summary Report* prepared as at April 25, 2008, listing all currencies presently in Groups 1-3. The IDA monitors the volatility of all Group 1, 2 and 3 foreign currencies and issues a notice when there is any change in status.

For reference purposes, the preceding foreign exchange margin surcharge notice to Members was MR0526 dated March 26, 2008.
